Concluding Observation Human Rights Committee CCPR/C/IRN/CO/3 para 31

Full recommendation:

The State party should widely disseminate the Covenant, the text of the third periodic report, the written responses it has provided in response to the list of issues drawn up by the Committee, and the present concluding observations so as to increase awareness among the judicial, legislative and administrative authorities, civil society and non-governmental organizations operating in the country, as well as the general public. The Committee also suggests that the report and the concluding observations be translated into the official language of the State party. The Committee further requests the State party, when preparing its fourth periodic report, to broadly consult with civil society and non-governmental organizations.

Assessment

A. **The State party should widely disseminate the Covenant, the text of the third periodic report, the written responses it has provided in response to the list of issues drawn up by the Committee, and the present concluding observations so as to increase awareness among the judicial, legislative and administrative authorities, civil society and non-governmental organizations operating in the country, as well as the general public.**

There is no readily available information that might indicate that the Government of the Islamic Republic of Iran has disseminated the text of the third periodic report, the written responses it has provided in response to the list of issues drawn up by the Human Rights Committee, and the present concluding observations.

B. **The State party should, when preparing its fourth periodic report, to broadly consult with civil society and non- governmental organizations**

There is no readily available information that might indicate that the Government of the Islamic Republic of Iran has broadly consulted with civil society and non-governmental organizations to prepare its fourth periodic report.

Recommendation Status:
This recommendation has **NOT** been implemented.
