

Concluding Observation Committee on the Rights of the Child CRC/C/IRN/CO/3-4 para 97

Full recommendation:

The Committee recommends that the State party take all appropriate measures to ensure that the recommendations contained in the present concluding observations are fully implemented. The Committee also recommends that the combined third and fourth periodic reports, the written replies to the list of issues of the State party and the present concluding observations be made widely available in the languages of the country.

Assessment

A. Take all appropriate measures to ensure that the recommendations contained in the present concluding observations are fully implemented

As of February 2021, the Government of Iran (“Iran”) has not taken all appropriate measures to ensure that every recommendation in the Concluding Observations is fully implemented. As the other assessments illustrate, Iran has not implemented or only partially implemented a significant number of recommendations. Meanwhile, some recommendations may impose a future deadline for compliance by Iran, such as in Concluding Observation CRC/C/IRN/CO/3-4 para 97.

B. Make the combined third and fourth periodic reports, written replies to the list of issues of the State party and the present concluding observations widely available in the official language of the country

As of February 2021, Iran has neither translated these aforementioned documents into Persian, as the country’s official language, nor made them widely available to the public.
